

Future Forestry Skills: Insights and Innovations from the Forestry Workforce Training Program (FWTP)

2025 Forestry Australia Conference

Stakeholders

Engage and partner with key stakeholders to promote best practice

Leadership

Provide leadership in addressing national skills and training needs

Workers

Promote training outcomes that attract and develop new workers, upskill existing workers and support workers along their career journey

Industry Voice

Be a strong and strategic voice to government for the skills and training needs of industry as part of government skills reform

Programs

Develop programs and projects in workforce planning and training that deliver solutions to the skills and workforce challenges

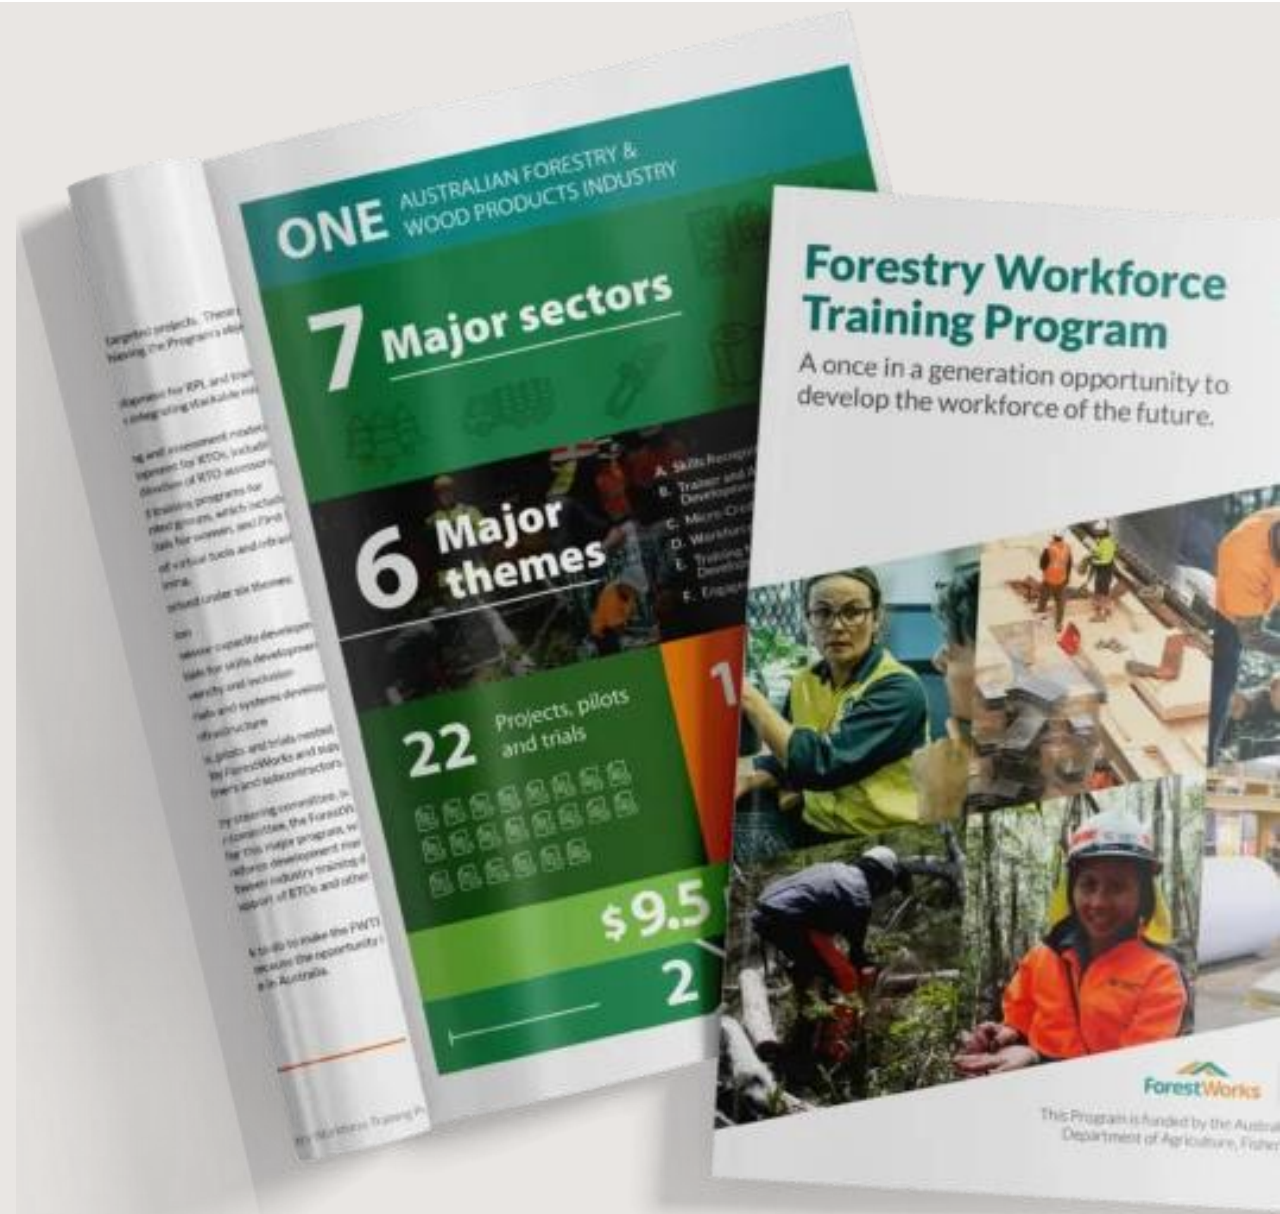

To support jobs and skills in a sustainable workforce
for the forest, wood, pulp & paper, timber, furnishing, textile, clothing and footwear industries

Forestry Workforce Training Program

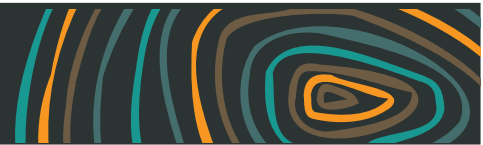

The Forestry Workforce Training Program (FWTP)

- **Once-in-a-generation** opportunity to develop the skills, knowledge and capabilities required for a future that supports the economic, ecological, and social benefits of forests.
- Across two years, the FWTP will focus on pilots and trials that test industry-generated strategies and opportunities
- Developing a future focussed workforce, including increasing and enhancing the role of First Nations people and women within the industry.

Connect, Learn and Grow with ForestEdu platforms to empower the forest, wood, and paper products industry.

ForestEdu | Network

Connect with industry peers, share ideas, post opportunities, and stay updated with the latest discussions shaping the sector.

ForestEdu | Library

Access a comprehensive collection of training materials, guides, and expert insights designed to upskill professionals and ensure industry best practices.

ForestEdu | Training Demand Tracker

Share your training needs to give training providers real-time insights into demand by region, sector, and skill area – helping them deliver the right training for you.

Welcome to the ForestEdu Hub

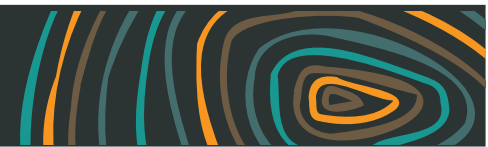

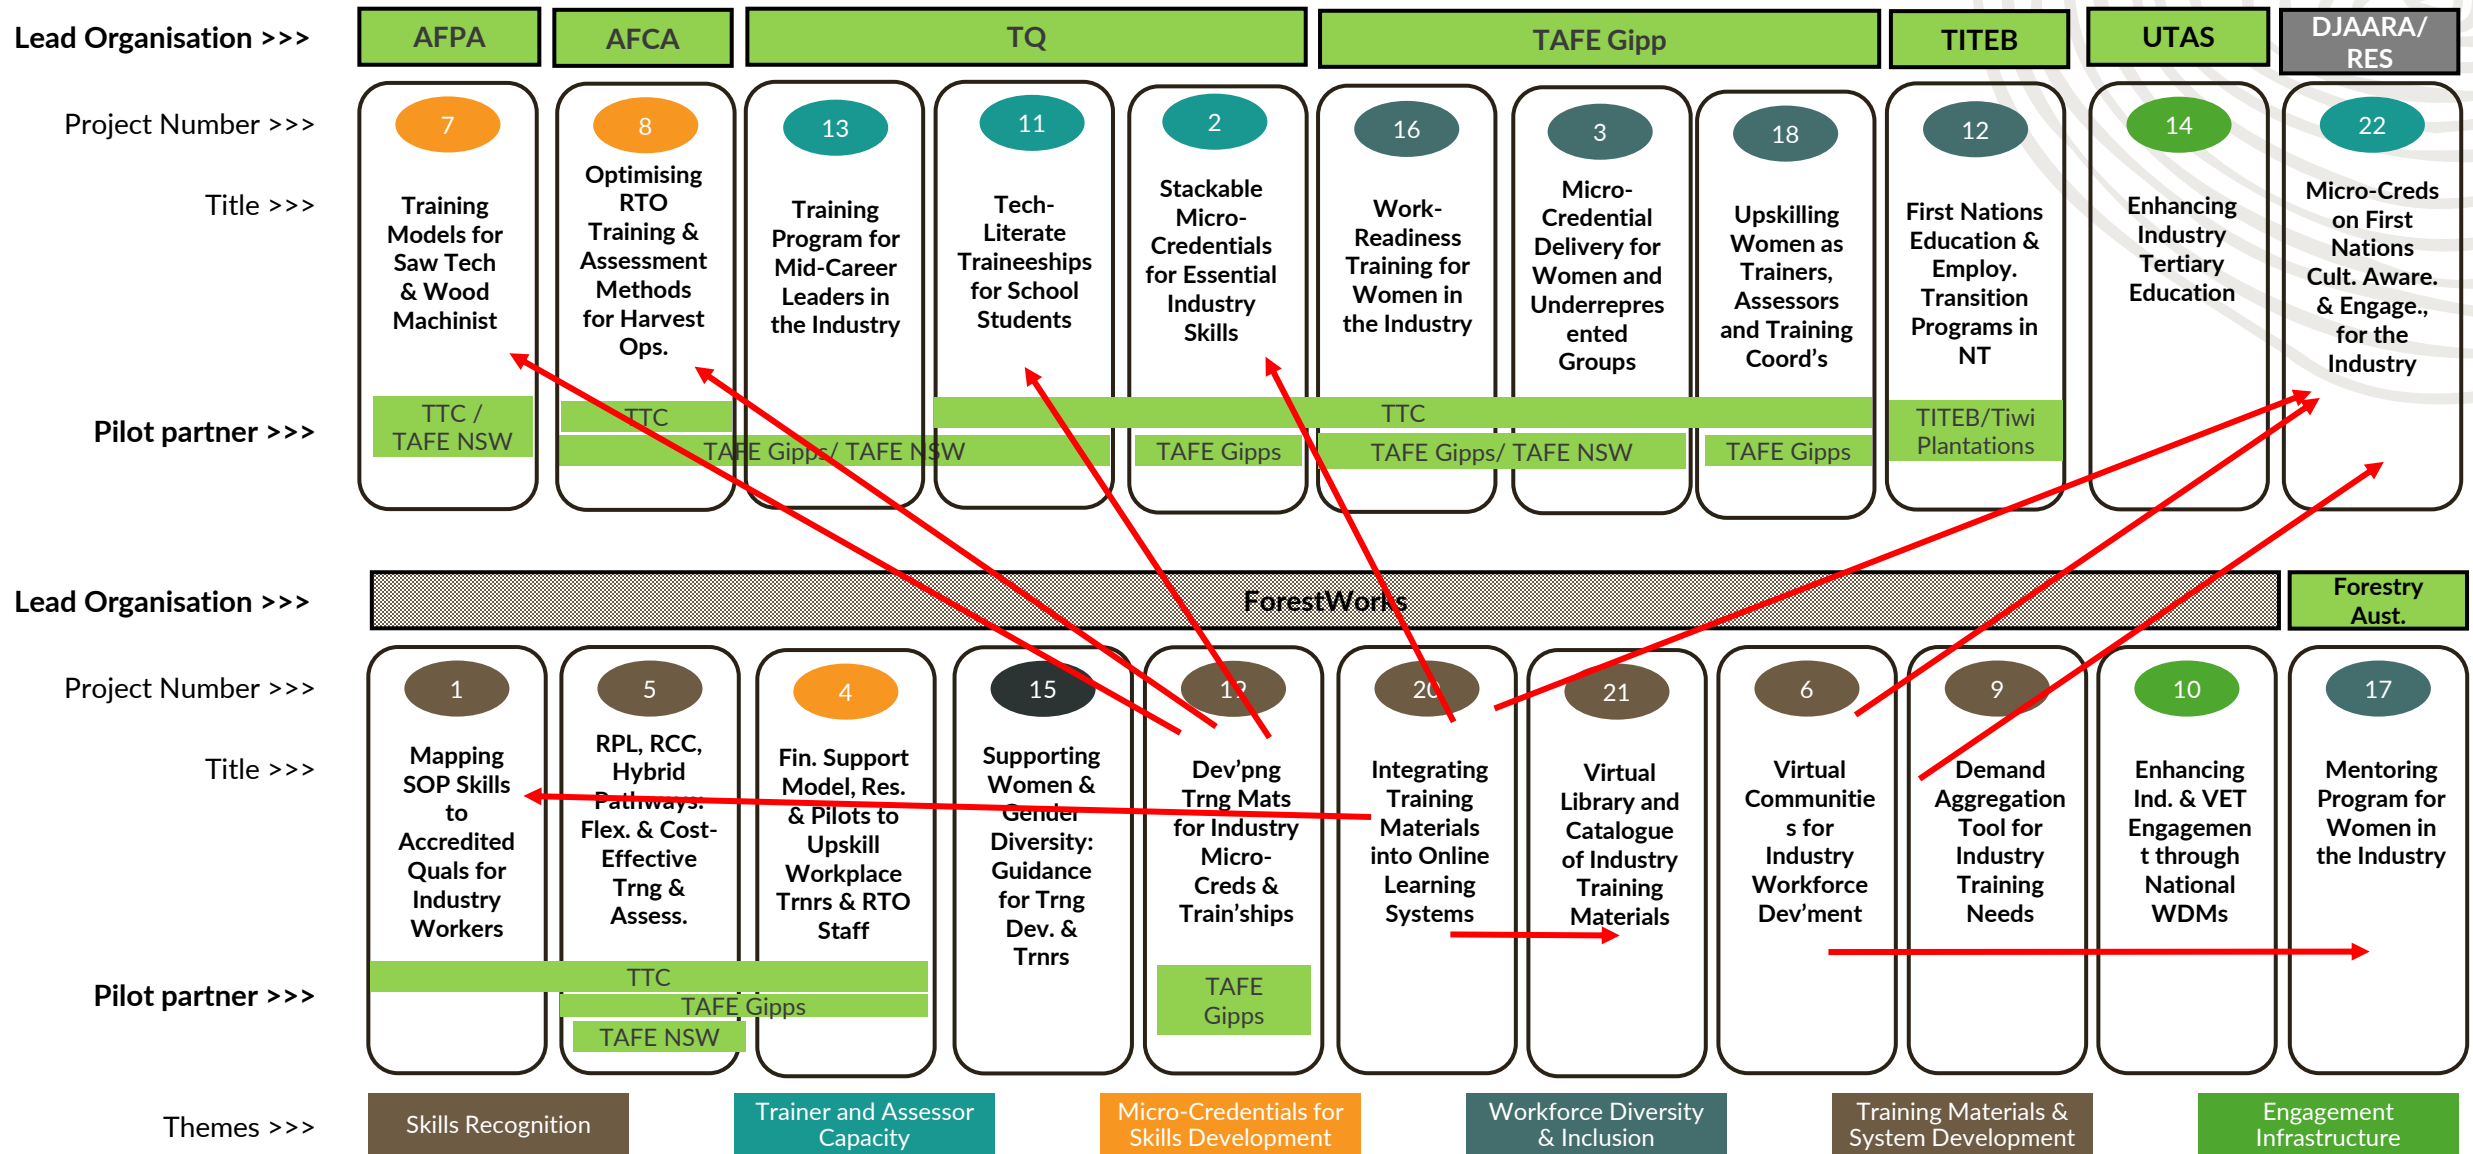

The ForestEdu Hub is your central platform for connecting, collaborating, and advancing skills development in the forest, wood, and paper products industry. Designed for training providers, industry professionals, employers, and individuals this hub integrates three products:

- ✓ ForestEdu Library
- ✓ ForestEdu Network
- ✓ ForestEdu Training Demand Tracker

Whether you're looking to connect with peers, explore training opportunities, or contribute to workforce development, the ForestEdu Hub provides the resources and support to help you succeed.

Key Features

For Learners:

A central platform to access educational materials and tools to enhance knowledge and skills in the forest, wood, and paper products sectors.

For Training Providers:

A central platform to find training resources and support materials to assist with course delivery and program development.

For Employers:

A central platform to discover resources for workforce development, increase productivity, and to align with industry skill standards.

The ForestEdu Library is a treasure trove of resources to enhance professional growth and development in the forest, wood, and paper products sectors.

FWPCOT3322 Apply quality and product care procedures in forest and wood products operations

This unit content was created, evaluated, and verified through industry consultation in collaboration with educators and subject matter experts.

Student Details	
Student Name	
Student ID	

About this Learner Guide

This Learner Guide will help you to develop your skills and knowledge relating to apply quality and product care procedures and monitor the quality of product output in the forest and wood products industry.

It will assist you to meet the requirements of the following unit of competency from the Forest and Wood Products Training Package:

FWPCOT3322 Apply quality and product care procedures in forest and wood products operations

Aboriginal and Torres Strait Islander Acknowledgement

The Forestry Workforce Training Program (FWTP) would like to acknowledge the Traditional Custodians across the lands, waters and seas that we work and live on and pay our respects to Elders past, present and future and thank them for their continuing custodianship.

WARNING: Aboriginal and Torres Strait Islander peoples are warned photographs / videos within this learning resource may contain images, voices or names of deceased persons.

Creator Attribution

This suite of learning content was developed by TAFE Gippsland with funding from the Victorian Government's Department of Energy, Environment and Climate Action, under the Victorian Forestry Worker Support Program. It was later adapted by ForestWorks, in collaboration with educators and subject matter experts, to support the national Forestry Workforce Training Program (FWTP).

Disclaimer

This suite of resources was produced by the Forestry Workforce Training Program (FWTP) project. The FWTP project is led by ForestWorks as a national forestry and wood products industries project funded by the Australian Government Department of Agriculture, Fisheries and Forestry (DAFF). This material is intended as an educational resource for certificate level, forestry and wood products workers training. All content has been prepared to provide informative, but general, knowledge on forestry and wood products aligned to the unit of competence

The information provided herein should be treated as a guide to appropriate practice only and should be followed subject to organisational and legislative requirements. The original developers do not accept any liability for any damage or loss (including indirect and consequential loss) incurred by any person as a result of relying on the information contained in this material.

For further information please contact the FWTP team:

Work effectively in the forest and wood products industry

4% COMPLETE

Overview About this course 

▼ PART 1 - WORKING IN THE FOREST AND WOOD PRODUCTS INDUSTRY

Part 1 - Working in the forest and wood products industry Types of employment Work orders and job requirements 

The forest and wood products industry makes a significant contribution to the Australian economy. It directly employs over 75,000 people and indirectly supports many other jobs. Forest industries are the major employer in many regional towns.

Sawn timber is one of the most significant forest products produced, with softwood and hardwood sawlogs being used to produce structural timber,

Assessment Tasks

AT1 Knowledge Questions

To do ▾

Objective(s):

To provide learners with an opportunity to show that they have gained the required knowledge for the unit.

Description:

Knowledge question assessments are a way of evaluating what you have learnt from this unit, and how well you can apply this knowledge to different contexts or problems. Assessment Task 1 will also help identify knowledge gaps, misconceptions, and areas for improvement.

Instruction:

Answer all following questions by providing as much detail as possible.

AT2 Practical Demonstration

To do ▾

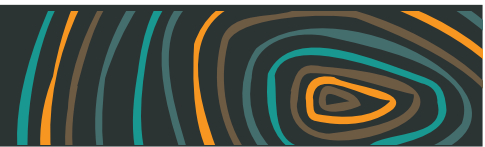

Student Instructions:

For this assessment, the student is required to complete the following task/s to workplace standards:

The assessor will record your performance in an observation checklist which contains the benchmark criteria for the task.

The following documents are to be submitted to the assessor as part of the assessment task:

- Project work plan
